

Location Strategy Worksheet

Use this worksheet to visually plot the areas where you will seek to raise a Ministry Team.

1. Sort your "namestorm list" by location.
2. Use a circle to mark on the map below where you have the largest group of connections. This is your "primary name pool."
3. Mark your living location for MTD. If this is not your primary name pool, discuss with a coach.
4. Make another, smaller circle to mark your second largest group of connections.
5. Make a few additional circles as needed.
6. Complete a Location Detail Worksheet for your top 3 largest locations.
7. For locations you cannot visit in person, you will need to choose a distance strategy.
