

Church Logo and Description on Reliant.org Profiles

Every missionary or ministry web profile shows the churches or ministries that you are affiliated with. Reliant calls these "church partners" or "ministry partners" and so they read "Partnering with..."

The church or ministry information stored under your church's record for all missionaries who are associated with that church. Changing it for one missionary changes it for all.

Partnering with Collegiate Church Network

Collegiate Church Network plants and grows collegiate churches devoted to the Great Commission. Through bold proclamation of the gospel, intensive leadership development, and focused church planting, they are building a network of churches that will greatly influence this country and the world for Jesus Christ.

Multiple Partners or Networks

Many of our missionaries have multiple affiliations through their church or ministry. These appear as a secondary partner card on the profile. This link reflects the Reliant database in tracking affiliations.

Multiple affiliations can be represented

The language on a affiliated network card cannot be changed per profile or per church, it remains the same across Reliant.org.
