## Change the corresponding URL? `reliant.org/first.last`

Use the [yellow feedback button](#) from your profile page. Leave a note and let us know.

We can only create aliases based around a name, couple, or family name. We can't create speciality urls like `"/luvsjesus4"`

## Name Misspelled or Wrong?

Submit a request to your program liaison. If the web name is wrong, we want to make sure it isn't wrong on other important records too.

## Getting Married? Changing your name legally?

Actual name changes involve changes to benefits and employment. Go to the [Newly Married Checklists](#) for details.

## Remove or Add a Spouse?

Please submit a request to your program liaison. Spouses that appear by name on the account are typically associate staff or employees.
